Full-Time Senior Salesforce Developer at CRMD

Company Description: CRMD Solutions is a Boston-based Salesforce consulting company with over 20 years of combined Salesforce experience. Our expert consultant team helps businesses optimize their use of technology to drive faster sales and higher customer retention rates. We are a team of self-starters and independent thinkers with a passion for elegant solution design.

Job Description

CRMD is looking for a Senior Salesforce Developer to oversee custom application development for our clients. The Senior Salesforce Developer is responsible for reviewing client systems and architecting solutions based on project requirements received. Throughout each client engagement, they are responsible for providing guidance on industry best practices and navigating any unexpected technical roadblocks that may occur. Actual coding and implementation will be divided between the Developer and their team, with the Developer expected to take the lead on complex tasks and delegate the rest. Additionally, it is up to the Senior Salesforce Developer to ensure that all custom projects have been properly tested and reviewed prior to moving into deployment.

This is a full-time position for 30 hours each week. Hours spent each week will vary depending on the stage of the project. While the majority of the work can be handled remotely, the Senior Salesforce Developer is expected to be available for quarterly in-person company meetings and client onsites.

Required Technical and Professional Expertise

- 5+ years of professional experience in the Salesforce ecosystem
- 2-3 years experience creating and implementing custom Salesforce solutions
- Salesforce Platform Developer I & II certified
- Demonstrable expertise working in Apex and VisualForce
- Familiarity with agile methodologies
- Strong communication skills -- able to talk detailed specifications with the developers and then translate that into accessible language for consultants and clients
- Highly detail-oriented, organized, and able to work on multiple projects simultaneously
